PROFESSIONAL SUMMARY

Computer Engineering student at COMSATS University Islamabad, Lahore Campus, in the final stages of a Bachelor's degree (BSCE). Specializing in Computer Networks, Database Systems (SQL Server), and Python development. Hands-on experience designing enterprise networks, building normalized database systems, and programming in Python and C++. Seeking a software internship for Summer 2026 to apply technical skills in a real-world engineering environment.

EDUCATION

COMSATS University Islamabad, Lahore Campus

2023 – Present

Bachelor of Science in Computer Engineering (BSCE)

Relevant Coursework: Computer Networks, Database Systems, AI, OOP, Software Engineering, Digital Logic Design, Computer Organisation & Architecture, Data Structures, Signals & Systems, Discrete Mathematics, Linear Algebra, Probability Methods in Engineering, Microprocessor Systems

Board of Intermediate & Secondary Education, Lahore

2021 – 2023

FSc Pre-Engineering · Marks: 860 / 1100

Board of Secondary Education, Lahore

2019 – 2021

Matriculation (Biology) · Marks: 1080 / 1100

EXPERIENCE

Student Engineer — Academic Projects

Sep 2023 – Present

COMSATS University Islamabad, Lahore Campus · Part-time, On-site

- Completed hands-on engineering projects in Computer Networks, Database Systems, and Software Engineering.
- Tools used: Cisco Packet Tracer, SQL Server, VS Code.

Peer Tutor — Computer Engineering

2024 – Present

COMSATS University Islamabad, Lahore Campus · Part-time, On-site

- Provided academic support to fellow students in Computer Networks, Database Systems, and Programming.
- Helped peers understand complex concepts in OOP, SQL, and Networking through one-on-one sessions.

PROJECTS

Enterprise Network Design — Sakura Corp

May 2026

- Designed a full 3-site enterprise network with VLSM IP addressing, OSPF Area 0 dynamic routing, DHCP relay, and Router-on-a-Stick inter-VLAN routing.
- Configured VTP v2, Port Security, and Extended ACLs to restrict guest VLAN traffic from the server farm.
- Verified end-to-end connectivity via cross-site pings and HTTP server access from branch PCs.
- **Tech Stack:** Cisco Packet Tracer, TCP/IP, OSPF, VLAN, DHCP

University Misconduct & Plagiarism Tracking System

2025

- Built a fully normalized relational database (3NF) in SQL Server with 9 entities for tracking academic misconduct cases.
- Implemented triggers, stored procedures, ACID-compliant transactions, role-based access control, and audit logging.
- **Tech Stack:** SQL Server, T-SQL, Database Design, Stored Procedures, SSMS

SKILLS

Languages:	Python, C++, Java, SQL, MATLAB, Assembly
Database:	SQL Server, T-SQL, Stored Procedures, SSMS (SQL Server Management Studio)
Networking:	TCP/IP, OSPF, VLAN, DHCP, Cisco Packet Tracer
Hardware:	VHDL, Quartus Prime, Digital Logic Design

Tools: VS Code, Git, GitHub

Concepts: OOP, Data Structures, Digital Logic Design, Computer Organisation & Architecture, Software Engineering

CERTIFICATIONS

SQL (Basic) Certificate

June 2026

HackerRank · Credential ID: IDDC6C890F8C6D

SQL (Intermediate) Certificate

June 2026

HackerRank · Credential ID: E1A07CE962BC
